**第8問** 次の文を読み、(1)～(5)の問いの答えとして最も適切なものを一つ選び、解答用紙にマークしなさい。

Origami is the Japanese art of folding paper. To do origami, the artist starts with a square\* piece of paper. Some people like to use special origami paper that is two colors. The front of the paper is one color, and the back of the paper is another color. Other people like to use origami paper that has patterns\* on it.

After choosing your paper, you can find many instructions for folding the paper into different things. Many people enjoy making origami flowers, animals, or things to play with. For all of these things, there are a few kinds of folds that you need to use. For example, sometimes you need to fold the paper in half. Sometimes the paper must be folded from corner to corner.

If you follow the directions carefully, you can create a beautiful paper flower or animal. However, origami is more than just folding paper. First, origami reflects\* an important part of Japanese life. For example, nature is important in Japan. In Japan, people care about\* the seasons, weather, water, or other things in nature. Origami is also a part of nature. That is why\* the most popular origami shapes are things like animals. Birds, fish, flowers, and stars are all popular shapes.

Origami is also good for your mind. It is a quiet activity that can calm\* the mind and body. People who do origami like the activity as much as the art. They like it because origami demands\* a lot of attention. When people think hard about creating something, they forget about their problems. This allows\* them to calm down.

Origami is also good for teaching children. First, origami has many steps. Children must follow these steps exactly. This way, children can learn to follow instructions. They also learn to work carefully. Also, origami has squares and triangles\*. These shapes are important in all kinds of learning. Origami helps children learn about these shapes.

Maybe you can try to do origami yourself. You only need some paper and a book of instructions. You can find instructions for many origami shapes on the Internet.
